HP Latex 115 Printer

Grow your signage business with easy, versatile indoor/outdoor large-format printing up to 1.37 m

Gain business with amazing image quality

- Print a wide range of high-quality indoor and outdoor signage, even on low-cost uncoated media.
- Impress with six colours of HP Latex inks – you can achieve amazing, vivid colours and smooth transitions.
- Produce professional, high-resolution prints up to 1200 x 1200 native dpi.
- Free solutions – from the HP Signage Suite[2] to the HP WallArt Suite[3] – help you bring your ideas to life.

Deliver same day – say yes to any job[1]

- Produce high quality at speed – 12 m²/hr for indoor quality.[4]
- Reduce waiting time – prints come out dry and ready for finishing and installation, for same-day delivery.
- You can minimise damage risk, avoid lamination for short-term applications with scratch-resistant prints.[5]
- Deliver with confidence – outdoor prints last up to 5 years laminated, 3 years unlaminated.[5]

Enjoy easy and intuitive operation

- Simplify printer operation and gain time/space with automatic maintenance and front-media loading capabilities
- Cut your jobs easily and efficiently with the automatic X-axis cutter.
- Replace HP Latex ink cartridges and printheads yourself; unplug the printer without risk of printhead damage.
- Stay connected with your printer in real time while you're away with the free HP Latex Mobile app.[6]

[1] The HP Latex 115 Printer produces an extremely broad range of both outdoor and indoor applications from a single device, which surpasses the number of different applications that traditional eco-solvent printers or water-based printers can produce.
[2] Requires an HP Applications Center account, Internet connection, and connected Internet-capable device. For more information, see http://www.hpapplicationscenter.com.
[3] Requires an HP WallArt account, Internet connection, and connected Internet-capable device. For more information, see http://www. hpwallart.com.
[4] Indoor quality (8-pass 6-colour) mode.
[5] Scratch resistance is comparable to hard-solvent inks on self-adhesive vinyl and PVC banner. Estimates by HP Image Permanence Lab on a range of media. Scratch-resistance comparison based on testing HP Latex Inks and representative hard-solvent inks. Outdoor display permanence tested according to SAE J2527 using HP Latex Inks on a range of media, including HP media; in a vertical display orientation in simulated nominal outdoor display conditions for select high and low climates, including exposure to direct sunlight and water; performance may vary as environmental conditions change. Laminated display permanence using HP Clear Gloss Cast Overlaminate. Results may vary based on specific media performance.
[6] HP Latex Mobile is compatible with Android™ 4.1.2 or later and iOS 7 or later, and requires the printer and the smartphone or tablet to be connected to the Internet.

[1] Special ventilation equipment (air filtration) is not required to meet U.S. OSHA requirements. Special ventilation equipment installation is at the discretion of the customer – see the Site Preparation Guide for details. Customers should consult state and local requirements and regulations. Contains no Hazardous Air Pollutants according to EPA Method 311. Odorless prints: there is a broad set of media with very different odor profiles. Some of the media can affect the odor performance of the final print.
[2] UL GREENGUARD GOLD Certification to UL 2818 demonstrates that products are certified to UL's GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit http://www.ul.com/gg or http://www.greenguard.org.

[1] Reflective measurements on a 943 colour target under CIE standard illuminant D50, and according to the standard CIEDE2000 as per CIE Draft Standard DS 014-6/E:2012. Backlit substrates measured in transmission mode may yield different results.
[2] This product does not contain substances listed as SVHC (155) per Annex XIV of the EU REACH directive published as of June 16, 2014 in concentrations exceeding 0.1%. To determine the status of SVHC in HP products, see the HP REACH Declaration published at HP Printing Products and Consumable Supplies.
[3] HP Large Format Media take-back program availability varies. Some recyclable HP papers can be recycled through commonly available recycling programs. Recycling programs may not exist in your area. See http://www.HPLFMedia.com/hp/ecosolutions for details.
